FATAL FIRE.

Great Conflagration Caused by the Warm Weather.

Louisville, June 30th.—Five acres of fire was the awful sight witnessed at the Standard Oil Refinery, Fifth and C streets, this morning. The immense structure was blazing at every point, and the heat was so intense that even 200 yards away persons were overcome.

Following is the list of casualties: Andrew McDonald, aged 12, badly burned; John McDonald, aged 14, literally roasted alive; Dan. O'Neil, aged 12, burned almost to a crisp and will die; John Kline, aged 21, frightfully burned; Severen Skene, aged 41, terribly burned; J. A. Pettigo, aged 45, badly though not fatally burned. Arthur Yonkers, aged 18, as sightly burned.

It was at first reported that seven lost their lives, and later that three were killed and thirty-five wounded, but it is now believed the above will cover the casualties.

The fire broke out at 8:45, and was the result of hot weather. Saturday a tank of crude oil came in to be refined. Some of the workmen thought the tank too hot to be emptied and the work was postponed. This morning it became necessary to run the oil into another tank, when Inspector Skene took John Pettigo and another workman, mounted the manhead and unscrewed the cap. In an instant there was a dull puff as the vapor escaped. The gas, heavier than the air, sank to the ground, spreading about all over the locality and moving with the wind. Almost in a twinkling it reached one of the sheds, under which was a fire. There was a flash as the inflammable vapor ignited, and immediately after there was a tremendous explosion. The tank was blown to pieces and hundreds of gallons of burning oi. sc attered all over the great works. A wall of fire 300 feet high and nearly 900 feet long moved with lightning rapidity to the buildings. Immedia.ely the canning-house, filled with thousands of gallons of oil, the cooper-shop, carpenter-shop, pump and engine-houses, the filling and lubricating houses, storage-houses, paint and glue-houses and 900 feet of platform were all ablaze. The employes on the grounds and persons in the neighborhoo

caped except those mentioned. At 11 o'clock the fire promises not to spread The loss is \$35,000. CALIFORNIA FRUITS.

Prices Advancing for Apricots, Peaches and Prunes.

New York, June 30th.—It is ascertained that a number of offers for California prunes, apricots and peaches went out from here last week at a considerable advance over the offers of the previous week. Better offerings are made for both canned and dried truits from California. Several packers have withdrawn prices the past few days. Some who previously adhered to the opening figures now quote 10c per dozen advance on peaches. Meantime, it is reported on seemingly good authority that the pack of fruits in the green fruit market that the cherries in New Jersey are attacked by the cherry rot, thereby further shortening an already short crop. and Prunes.

CHICAGO, June 30th.—Two auctions occurred to-day of California fruit. Sgobel & Day auctioned one carload at the following prices: tioned one carload at the following prices: Royal native plums, \$2 50 to \$2 80 per box; Alexander peaches, \$2 05 to \$1 85 per box; Royal apricots, \$2 10 to \$2 60 per half-crate. All this fruit came in good condition, and was from the California Fruit Union, but some apricots were a little green. There was a large attendance of spectators. The demand is strong, there being little fruit in the market excepting bananas and oranges.

Trout-fishing excursions to the mountains are the rule these days. On Saturday and Sunday a party consisting of Senator J. Sloat Fassett, of New York, John W. Dwight, of North Dakota, and Major C. S. Houghton, Harry Gillig, Dr. Wood and Dr. Southworth, of this city, caught a fine lot of trout in Donner creek.

A statement prepared by the Trustees was read, stating that they, with counse!, had under consideration a pian for reorganization of the company to meet all the requirements of the State law. The statement called attention to the fact that the Court of Appeals' decision was technical. While it opposed monopolies it did not attack the principle of pooling the business of kindred interests.

Colonel J. C. Reif asked for a finavcial statement of the company's affairs, and demanded ment of the company's affairs, and demanded ment of the Colone is the Capital Hotel yesterday:

A statement prepared by the Trustees was ment of the company's affairs, and demanded as a minority certificate-holder to inspect the books. He was referred to the Treasurer, who the Chairman said, would furnish such information as was thought proper to make public.

Theodore A. Havemeyer said, informally, that the buyers of certificates should have informed themselves before that the corporation was not conducted like a railway. It was not to be expected the earnings, etc., would be made public, though they were accessible to all certificate-holders.

New Process for Working Iron Ore.

New York, June 30th.—Edison, the inventor, is about to try a new process for working iron ore. A company, of which he is at the head, has purchased the Ogden iron mine, near Ogdensburg. The old process of extracting magnetic iron proved too expensive for the company fermerly owning the property to work at a profit. It is estimated that Edison's machinery will crush 1,000 tons of ore per day and extract therefrom sixty-five per cent. of pure magnetic iron.

After the Bandits. SAN ANTONIO, June 30th.—General Moanot Valdes left San Juan Wednesday with a posse of fifty picked cavalrymen, and marched sixty mites up Brano to a village called Pan. There he met a force of bandits, whom he pluckily attacked, although they outnumbered his force two to one, but was routed. Seven of his men were killed and five seriously wounded. The bandits all got away, and it is not known how many of them were wounded.

Church Consecration. PHILADELPHIA, June 30th.—The Roman Catholic Cathedral of St. Peter and St. Paul, the corner stone of which was laid September 6, 1846, was consecrated to-day with the most impressive and imposing ceremonies in the presence of Cardinal Gibbons, and Bishops, Archbishops and priests from all parts of the country. The sermon was preached by Cardinal Gibbons.

Electric Storm. WHEELING (V. V.), June 35th.—A terrific electric storm visited this city this afternoon. A tremendous rain-storm flooded the streets and many cellars in the lower part of the city. The lightning played havoc all through the city, but no lives are reported lost. The Telephone Exchange was burned out, and a great deal of damage was done to other points in the city. Chicago's Death Rate.

CHICAGO, June 30th.—The Register of Vital Statistics is busy to-day registering death certificates, and should the present rate keep up the mortality list will be larger this week than last. A majority of the deaths reported to-day were due directly or indirectly to the heat. The death rate among horses is also growing very large. ery large.

COGAN'S DEATH. The Coroner's Jury Brings in a Verdict of Manslaughter.

SAN FRANCISCO, June 30th,—The Coroner's inquest in the case of Edward Cogan, who was shot and killed by James Kerr last Tuesday morning, was held in Police Court No. 3 this Alternoon.

Kerr was present, with a number of his friends. His attorneys, C. Ben Darwin and Reuben Lloyd, occupied seats in the Courtnoom. Cogan's brother and several of his friends came in after the inquest had been begun. A number of the union molders were in attendance.

Rey, veterinary Crowley says: "I examined El Rio Rey at Et. Louis and pronounced him a roarer, and expressed the opinion that he could not race in his true form, in the near future at least. Although a tracheotomy tube would greatly benefit him, as there is a possibility of the horse recovering, Mr. Winters has decided to send him home and in the spring breed some of his mares to him, and then try him again. While there are many races El Rio Rey could win in his present condition, Winters would not punish him by training him as he is. If the cold does not get perfectly well he will be kept in the stud."

Trouble at a Glove Fight.

PITTSEURG, June 30th.—In a prize fight with hard gloves, near Shouztown, between Elmer Grant, of Beaver Falls, and Fred. Wise, of New Brighton, one round was fought lasting forty-five seconds, during which Grant knocked Wise down seven times, the last time knocking him insensible. A younger brother of Wise jumped into the ring, and with the back of an ax dealt Grant a terrible blow on the back. The referee decided the fight a draw, much to the field statisfaction of the Grant adherents, and fither was nearly a riot.

took place after the assault on Kerr and Clausen—some time.

W. Brown did not know Cogan. He is employed in Weed & Kingwell's foundry, on First street, near where the shooting occurred. He saw several men fighting Clausen, who was getting whipped, and saw Kerr take out his pistol and take deliberate aim at some men who were running away across First street. He did not see Cogan at the time of the shooting, as there were some people in the way. When the shot was fired there were one or two men standing near Mr. Kerr. He saw Clausen and Kerr break away from the crowd that surrounded them. Witness said nobody seemed to be trying to hurt Mr. Kerr, although they were giving it to Clauseu. When Kerr drew his pistol to fire it it was just in front of the Pacific Foundry.

Walter J. Hargrave is employed at the Pacific Iron Works; knew Clausen by sight. He was standing at a window facing on Minna street, when he saw several men run up First across Minna. He ran around to the Minna-street side and saw Kerr and Clausen running up First street, Kerr in advance. Just as Clausen reached the Pacific Iron Works a man stepped out and and saw kerr and Clausen running up First street, Kerr in advance. Just as Clausen's assailant then ran across the street. Clausen's assailant then ran across the street. Witness saw Kerr fire across First street, and the man who struck Clausen stumbled in the middle of the cartrack. Witness then directed his attention to Kerr, thinking he might shoot again. The next he saw was Cogan lying in the street near the lamp-post. He said that the man who struck Clausen was dressed in dark clothes, while Cogan wore garments of a lighter color. Beside, Cogan was larger than the man who struck Clausen. Witness was pretty positive that Cogan was not the man who hit Clausen.

A number of other witnesses were examined, when the jury retired. After deliberating an hour, the jury brought in a verdict finding that Cogan met his death from a shock and hemorrhage caused by a shot fired by J. W. Kerr, and charging Kerr with manslaughter.

SOUTHERN PACIFIC. Report of the Earnings for the Past

SAN FRANCISCO, June 30th.—A summary of the earnings and expenditures of the Southern Pacific Company for May show a decided in-crease in the net earnings for the month over Pacific Company for May show a decided increase in the net earnings for the month over April, while the statistics for the five months ended May 31st are much more favorable than those for a corresponding period last year. The indication are that, despite the heavy expenditures and losses of traffic consequent on slides, washouts and blockades during January and February, the surplus for 1890 will exceed that of 1890. The gross earnings of the whole system for May were \$4,154,-855 71; operating expenses, \$2,588,646 93; earnings over operating expenses, \$1,586,209 78, and a total net earning of \$1,627,854.

The fixed and other charges payable including \$104,916 67 in taxes, \$348 307 24 interest on the funded debt, \$113,333 rental for the Central Pacific, and \$61,250 for the Central Pacific sinking fund. The United States requirements amounted to \$1,274,777 15, leaving a net profit for the month of \$333,076 91. as compared with the deficit of \$160,134 in May of last year and the net profit of \$3,936 in April of this year.

On the Pacific system alone the gross earnings for the past year were \$2,762,320; operating expenses, \$1,662,892; earnings over operating expenses, \$1,662,892; earnings over operating expenses, \$1,099,428. The total net earnings were \$1,135,783, and net profit \$206,166. In April the operations of the Pacific system showed a loss of \$49,234.

the operations of the Pacific system showed a loss of \$49,234.

The coast division, the completion of which is being agitated, shows gross earnings amounting to \$208,480; operating expenses, \$102,542; earnings over operating expenses and net earnings, \$105,888, and a net profit of \$1,844,505.

The deficit on the whole system for the five months ended May 31st was \$1,403,221, against a deficit of \$1,550,191 at the same time last year. For these five months the Atlantic system shows a surplus of \$366,088, and the Pacific system shows a surplus of \$366,088, and the Pacific system shows a felicit of \$1,772,669. As the earnings of the last six months of each year greatly exceed those of the first six months, and as the deficit of \$1,550,191 on May 31, 1889, was wiped out during the rest of the year, and a surplus of over a million afforded the prospects of the company for 1890 are not at all discouraging.

Hazeldine, General Attorney of the Atlantic and Pacific Kailroad Company, with headquarters in Albuquerque, is in this city. In speaking of the future of the Atlantic and Pacific, Mr. Hazeldine said that it was very bright, and that the prospects were that the road would afford a net income in itself before a great while, instead of showing a deficit, as has heretofore been the case. The earnings are constantly on the increase, and the monthly net profit was shown in December last for the first time. As to the prospects of the Santa Fe extending its system northward through California, he could say nothing.

Suing for Tide Lands.

San Diego, June 30th.—The San Diego Harbor Commissioners to-day commenced suit against the city of San Diego, to recover several blocks of tide lands. The territory in question commences at the southwest corner of H and Atlantic streets, running north, and is very valuable. The complaint alleges that the city on June 1, 1890, without right or title, entered into the possession of said portion of the bay of San Diego, and now unlawfully withholds the same from the State. The State therefore prays for judgment against the city, the recovery of the land, and the cost of litigation.

During the second day out Eyraud spent the time alternately in speaking of his daughter with tears in his eyes, and complaining bitterly of the bonds which confined his legs. On the third morning he cried, evidently thinking of his daughter:

"Thank God," he said, "she cannot see her father now." Then he began to weep and sob again, and to rub his eyes with his manacled hands.

"Mademoiselle," he said, "I heard your voice outside. You are a Parisian, like my daughter. She is pretty, too, Mademoiselle, like you. For myselt, I am content. It is for my wife and child that I suffer."

There is no doubt that Eyraud is crazy on the subject of his liaisons. In spite of his frightful position his greatest emotion seems to be one of pride at his amorous successes. He is utterly incapable of understanding moral obligations, and in this respect appears to be at once a brute and a fool, although intelligent enough in other matters.

We would prefer to think, and shall believe until it is better established to the contrary, that the Supervisors are misled, or that they hesitate upon the issue of right or wrong in the law. But however that may be, we do know that if the Amador people want a road into the county more direct than they now have, and have done their share in securing such a road, Sacramento county cuts its own throat, so far as Amador trade is concerned, when it says "go about the long way or stay out." In all such cases another and nearer market place, which will be built up at the expense of the place that refuses to open the gate when the man with money to buy knocks for admission. It is simple justice to record that in the action had in the Board of Supervisors on the subject matter, Messrs. Tebbets and Black voted for the opening of the road in question.

By this time Eyraud, the brutal French murderer, has been landed in Paris. His trial will take place at once, and we shall see how swiftly justice is administered in as any one store should be allowed to France. There was more of truth than on the steamer to the ship's barber, that on their arrival in France. The wretched thug has been confined hand and foot on they could agree on the terms of an orshipboard, and it is said that so closely have his hands been pinioned, that another twist of the steel wire circling his wrists would have cut into the flesh. Like all brutal assassins, those who kill to rob, who plot assassination for gold, Eyraud has proved in confinement to be a great coward, and the sickly sentimental will find nothing in him over which to pour out their sympathy. In fact, there will be little time allowed for that, since in France there are no months of delay as with us in bringing criminals to trial; no further months for hearing of applications for new trials; and no waste of months or years in appeals and rehearings, and all that. Certainty of punishment and swiftexample might well be followed in this land, to the infinite benefit of society.

THE flight of Russian Nihilists from Paris to London proves the charge that Switzerland has declined to anger Russia by affording these malcontents refuge as in the past. But even in London the Nihilists will be closely watched by Russian agents. The refugees will be less dangeragents. The refugees will be less danger-ous to Russia in London than in Paris. were those carried by the troupe, and his-torically in keeping with the era of action The community by which they will be surrounded in the former city is one from which they can derive less support and that will be least likely to recruit their ranks. It is the method of the Nihilist, rather than his demand, that is worthy of condemnation. If one takes up as matters of emphasis to defend the po the announced declaration of the Nihilistic sition he has assumed. The Subject Considered by the vity Board of Trustees. At vesterday's session of the City Boord of Trustees Grove L. Johnson appeared on behalf of Whittier, Fuller & Co. in regard to the matter of the storage of petroleum and the refined products thereof within certain limits. He held that the proposed amended ordinance was directed at the house of Whittier, Fuller & Co., an old-established firm, which owned the property on which it does business here. He could not see why that house should be singled out to have its operations restricted If the proposed ordinance were passed it would amount to a prohibition of one branch of the firm's business, and could the traders will stay out. They will seek | could not be forced outside the city limits, not be enforced in the Courts. They since it would be impossible for them, in winter, to reach their warehouses. Mr. Johnson argued that nobody was endangered by the storage of these oils in the ompany's warehouse, as it was surrounded by double brick walls. The insurance rates on hay, flouring mills, etc., are seveal times as great as that on stored oils which is but \$1 40 in the case of Whittier. Fuller & Co., while flouring mills pay as high as \$5. This, he held, was because the oil is not regarded as dangerous. Public sentiment had not demanded the proposed amendment of the oil-storage ordinance. Chief Engineer O'Meara being asked his opinion on the subject replied that he thought fifty cases of gasoline was as much

There was a good house to greet Wilson Barrett at the Metropolitan Theater last night, an audience that recognized and warmly applauded the artist. But the merit of that finished artist's interpretation ness keep abreast in that country, and the of the character of Hamlet deserved crowded house. While Mr. Barrett's company is not, in "Hamlet" at least, what in this city the theater-goers have been accus-tomed to consider of the very first class, and while it is certainly not in ability abreast with the star, nevertheless Miss Eastlake's Ophelia, George Barrett's grave-digger and Mr. Cliffe's Laertes and Mr. Elliott's ghost were fine works and of finished character, and gave to the support strength and fullness. The scenery of the play and the stage fittings and furniture

CARD OF THANKS.

WE DESIRE TO EXPRESS OUR DEEP AND heartfelt thanks to very many kind friends for acts and words of sympathy and kindness tendered us during the past few days, and which have gone for to lighten the burden of our recent bereavement.

It is impossible to name all who have thus placed us under obligation, but among the many who have done so we wish particularly to thank placed us under obligation, but among the many who have done so we wish particularly to thank Rev. A. C. Herrick for the able eulogy delivered by him at the church; also, to Rev. Mr. Beachgood for kind services on his part. To Mrs. Percy Ross, Mrs. DeWitt Renfro, Richard Cohn and C. H. Leadbetter we wish to express our sincere appreciation of the beautiful music rendered by them. Among other selections, the anthem "Vital Spark" was a favorite of the one who has left us, and was especially acceptable on that account. who has left us, and was especially acceptable on that account.

The Order of Odd Fellows, who honored their departed brother by the large concourse which followed his remains to their last resting place, has also our sincere thanks.

MUNICIPAL AFFAIRS.

LONG AND TEDIOUS SESSION OF THE TRUSTEES YESTERDAY.

McLaughlin's Motion to Forfeit the Elec tric Company's Bond Still in the Balance-Other Matters.

At yesterday's session of the City Trustees J. J. Bauer said he desired to enter a complaint against the Central Electric Company for erecting one of their poles at Third and J streets, in close proximity to his balcony. He did not want it there, and considered it a nuisance to him. He objected to its being erected there when the men were putting it up, but they paid no attention to him. It also obstructed the sidewalk for three feet.

Trustee McLaughlin said he believed the company had concluded to have its own way, and nothing would stop it unless they were brought into Court. He could serve an injunction on them, but didn't think that would do any good.

Mr. Myers of the Electric Company said that when his men were erecting the pole Mr. Bauer, without stating any reason, ordered the men to take it down.

Trustee Wolf said he had not heard anything about the matter, and did not know where the pole was placed.

The Mayor said it would probably be better to lay the matter over, but the Street

ner wanted it settled right

After being further discussed at the after-noon session, the matter went over one

Mr. Roth said the property owners on L street, from Eleventh to Fifteenth, were getting tired of the manner in which they were being treated by the Central Street Railway Company. When the road was being built the people subscribed liberally, expecting of course to see cars running on the street, but not a car had been run there for months. The residents were so wrathy for months. The residents were so wrathy that some even threatened to go out and tear up the track if the company wouldn't

The Mayor said he had been spoken to by one of the members of the company, who said it didn't pay them to run the road over that street, and they did not propose to do it. It would be better not to force them, for then they would not attempt to run a car at all over that way. Trustee McLaughlin said matters had come to a pretty pass. He would like to have a little tussle with the company just to show that it couldn't walk over the

No action was taken, but the Mayor assured Mr. Roth that the Board was in sympathy with the property owners.

The Water Works report showed that 39,252,000 gallons of water were pumped during last week. The Holly engine worked 61 hours and the Stevens 133 hours. George Murray said he thought the residents in the vicinity of Eighteenth and M streets had been overlooked when the electric lights were being distributed through-

out the city.

Trustee McLaughlin informed him that he intended to have a light there soon, and Mr. Murray was satisfied. Bids for constructing a sewer on N street, from Twenty-second to Twenty-ninth, were

opened and read. R. W. Parker was allowed to withdraw his bid for grading or graveling I street, from Thirteenth to Twenty-first.

The sum of \$568 25 was allowed S. Solon Holl for services as attorney for the city.

The Board accepted an invitation to participate in the Fourth of July celebration. The Mayor read the report of Chief of Police Drew, which contained the names of parties conducting saloons whose licenses he thought out to be revoked. Trustee McLaughlin said there were

plenty more places that ought to be on the list, and probably some of those reported were respectable places.

Trustee Wolf said the Chief of Police had told him that there were several on the list which he was sorry he had placed there. The matter was then dropped. The ordinance regulating saloons, dancehouses and places where spirituous liquors

are sold was read, and required but the vote of the Board for its passage.

Trustee McLaughlin said he was going to object to a certain clause, where it stated that "an application for a license to conduct a saloon must be accompanied by a petition signed by a majority of the repu-table citizens in the block." He thought the words property owners should be substituted for those of reputable citizens.

Nothing was done with the ordinance. The matter of awarding the contract for building a bridge across the Y-street canal at Thirty-first street was taken up. Three bids had been handed in last week, but some of them contained conditional clauses, and only that of R. W. Parker was straight. He was not the lowest bidder, however, and there was some discussion as to whether or not the contract should be awarded to him. He was finally awarded

the contract.
P. Siebenthaler and other property-owners in the block between G and H, Twentyfourth and Twenty-fifth streets, petition to have the alley in that block declared open. So ordered.

The Mayor read a proposed new ordinance imposing a penalty for transacting business without a license, intended to cure a defect in the existing ordinance. Mr. McLaughlin said the matter was in a confused condition, and he moved that it be referred to the Mayor and City Attorney, they to report at the next regular meeting.

Trustee McLaughlin called up his mo tion to reconsider the vote by which the Board, at its preceding meeting, refused to declare the bond of the Central Electric Company forfeited. He said that either he was right, or the company was right. The latter was to have done certain things within a given time, under the terms of Sacramento two years ago, and that he is

its franchise, or forfeit its bond.

Mayor Comstock said he understood the company had received considerable machinery and laid out more money than the franchise called for in the first year. He (the Mayor) was not a member of the Board when the franchise was let, and was not responsible for what was done. If there was anything wrong it was because the company had been too smart for the Board and had got the better of it. Mr. McLaughlin returned to the attack,

and reiterated that the company had not been honest in its dealings with the city. The Board gave Mr. McLaughlin permission to carry his motion to reconsider over

for another week. On motion of the Mayor, the election notice was ordered published in the German paper and the Leader.

It was ordered that official notice be given that if the bond election should result favorably the city would pay one-fourth the expense of all street improvements done or the street improvements. ments done or commenced since January

There was a lively scuffle for a few minutes, quoth the peace guard-ian, but Andrew eventually subsided under the influence of the officer's brawny fist, which had lodged in the ex-Salvationist's

left eye.

"BUSINESS IS BUSINESS."

"VARIETY THE SPICE OF LIFE," QUOTH THE MAYOR.

Lively Tilt at the City Trustees' See Yesterday-Mayor Comstock in War Paint.

The usually prosaic routine of business at the City Hall was enlivened yesterday by a little bombshell which Mayor Comstock exploded. Matters had been dragging along for some time in a dull and listless manner, when the Mayor surprised his fellow-Trustees, the reporters and Chief Clerk Coffey of the Water-works by drawing from his pocket the following document, which he read for the benefit of all

Fellow Trustees: The first regular quarter of the year we have spent together is passed. Naturally we are getting acquainted. Remarks—pleasant complimentary. rally we are getting acquainted. Remarks—pleasant, complimentary, facetious, sarcastic, even almost angry—have been heard. Business is what we are here for. In the discharge of our duties we should be actuated only by the pure principles of business. We are not clerks; we constitute the most important arm of the city government. Our trust is great, and let that trust be maintained. In serving the city our ideas do not always harmonize. Competency, industry, faithfulness and economy are some of the great principles of business. Three months passed—what has been done? What have I done? I answer with an apology for my errors. passed—what has been done? What have I done? I answer with an apology for my errors. I kave done what I thought for the best. What I can do for our poor, tax-ridden city I propose to do; and I here suggest, very respectfully, a change that will be a credit to this Board. if adopted. Dismiss to-day one water collector. The total collections for four weeks in April were \$6,655 25; four weeks in May, \$5,532 25; four weeks in July, \$5,643 75. Total collections in twelve weeks, \$17,831 25—an average of \$1,486 per week, or \$77,272 per year.

The salaries of collectors and inspectors for three months amount to \$1,200. Add the expense of stationery, lights, etc., and the cost to the city will come up to seven per cent. for this service.

the city will come up to seven per cent. for this service.

In looking over the books I find some days very little accomplished. Very few bills are paid that are hard to collect. The hotels, restaurants, railroads, gas company, electric light company, breweries, landlords, laundries, dairies, mills, motors, wholesale stores, and many other water-takers are easy to collect from. Some 130 Chinese water-takers pay by the month. Collectors for business houses collect often more than 130 bills in a day.

I have considered this part of my duty very seriously, and feel it my business to correct extravagance, and I recommend to the Board that one collector be dismissed; and if not discharged, it is a duty I owe the city to protect her interests, and will refuse to sign the warrants for his pay. I feel, gentlemen of the Board, very proud; and thus feeling, I must do what is expected of me and spare none. I advocate harmony, and hope ever to treat you as gentlemen while I sit in this chair. I ask your indulgence.

Placing his manuscript back in his pocket, the Mayor proceeded at some length to criticise the management of the Water Works department. He thought the employes did not work faithfully, and yet the Chief Clerk was demanding more assistance. He (the Mayor) had found the responsibilities of his office. responsibilities of his office very onerous and annoying. It was the most arduous duty he had ever undertaken-to discharge the office to which he had been elected He wanted to do what was right, but found a very difficult undertaking.

The Mayor's criticism of the work of the Water Collectors stirred up a fire in the breast of Chief Clerk Coffey, who replied that the Mayor had been hounding him ever since he went into office. He (Coffey) had observed to the Water Clerk's office and had charge of the Water Clerk's office, and did not want any unnecessary interference on the part of the Mayor. He understood his business, and was collecting more money than had ever before been collected n that office. If the Mayor understood his own business, and would attend to it, he would do better than by interfering with other officials. He (Coffey) had done his duty faithfully in the past, and would do so in the future, and did not propose to be buildozed by anybody.

Mayor Comstock said he considered it his duty to visit the Water Clerk's office and see how things were going on. If he and see how things were going on. If he Committee

wore frowns on such occasions it was be-cause he could not help it. He was built that way, and he was greatly troubled in mind by the perplexities of his office. Trustees Wolf and McLaughlin said they Trustees Wolf and McLaughlin said they had known Mr. Coffey and his two clerks nounced that the latter would be published o work long hours and believed they were doing their duty fully.

The discussion then took a general turn, n which the Trustees, Mr. Coffey and Clerk Cavanaugh participated.

Trustee Wolf called the Mayor's attenion to the fact that there was an ordinance which provides for the employment and pay of the second collector, and it was

The Mayor said he was not aware of the Coffey interjected a stinging remark to the effect that there were a great many other sold in lots. The sale will also include the

Coffey was angry and he gave the Mayor to understand that, so long as he (Coffey conducted his office honestly and faith fully he should submit to no unwarranted interference. He said his books were open to inspection by the public-to the Mayor, as well as all others. He had nothing to conceal. Mr. Coffey then explained some of the difficulties connected with the colection of water rates, and why it was that on some days the collectors covered a great deal of ground without much to show for it. He said he had lived here for twentyfour years and he defied the Mayor or any one else to point to an act of unfaithfulnes

or dishonesty on his part.

The Mayor said he had no doubt what ever of Mr. Coffey's honesty, but thought he did not get work enough out of his ssistants. He (the Mayor) wanted to see his day's movements and results, the Mayor declared that the ordinance passed in 1877 providing for a second collector was passed for political purposes and should be repealed. He said he was amazed—he was nade nervous-he was struck dumb by what he had encountered during his brief term of office. He wanted to do right and to have credit therefore. He had an old home in the East where he wanted to be well thought of, and he desired to make a good record for economy as Mayor. He could not see why it should cost the city seven per cent. to collect its water rates He had his say, and hoped he had done some good by stirring up the matter. "Variety," said he, "is the spice of life, and

ousiness is business.

WILL NOT WEAR OUT A few reasons why our new WIRE BUCKLE

SUSPENDERS should be worn in preference to all others: The buckle is warranted to stand two years' wear. We will replace any that wear out before that time. The buckle has no rough surface to injure the clothing, no sharp teeth to cut the web. The buckle hook will not bend out of shape or break off, and is easily adjusted. The buckle has no spring to bother with when engaging or disengaging hook. The buckle takes a firm hold on the web and cannot slip. The buckle has three times the strength and durability of any buckle in the market. The metal-clasp used for putting on the straps or ends is far superior to cloth or leather, as usually used for that purpose. Price, 15, 25, 50, 65 cents and \$1.

THE SILVER BILL. Senator Stewart Believes it is Purposely

Delayed. Washington, June 50th.—Senator Stewart has become despondent over the silver situation, and now believes there will be no silver legislation at this session, and perhaps not at this Congress. He believes also that the Conference Committee was selected with the intention that they should not agree, or even try to agree.

He charges that the action of the Vice President in appointing Sherman Chairman of the Senate conferees was to induce a delay, and that Sherman so understands it, and will call a meeting of the Conference Committee whenever he feels like it, and not before. As Senator Jones of Nevada fathered the silver bill, he should have been appointed Chairman of the Senate conferees, but that would not suit the gold men, as under Jones' chairmanship an agreement would be arrived at very shortly Senator Stewart also believes Speaker Reed to Committee was selected with the intention that sgreement would be arrived at very shortly Senator Stewart also believes Speaker Reed to be in the plot to delay legislation, and that it was for that purpose that he appointed Walker of Massachusetts as one of the House conferees. Walker is at home in Massachusetts, and no one seems to know when he will return.

CRUISER PHILADELPHIA. An Official Report to be Presented To-

Day. WASHINGTON, June 30th .- Captain O'Brien. ent of the Trial Board on the new cruise Philadelphia, was at the Navy Department to-day in consultation with Judge Advocate-Gen-eral Remy, as to the requirements of the con-tract under which the ship was built. The retract under which the ship was built. The report of the Board will be made to morrow.

Charles Gramp was also at the Department, and, it is said, took the first steps towards obtaining a new trial for the ship. He will wait, however, until the report of the Board has been made public, before a formal application for a second test, if he should conclude to run that risk. In the event of a new trial, he will have to pay the cost of the first one.

It is understood on good authority that the Board will report that the average maintained speed of the cruiser was a fraction short of 19½ knots, and that it will make such representations to the Secretary as to the condition of the test as will practically preclude the granting of a new trial. This will give the builder a speed premium of \$100,000.

Postal Matters.

Washington, June 30th.—Postmasters have been changed as follows: California—J. Lawson, appointed at Kingston, Freeno county, vice J. Sutherland, resigned; J. W. Smith, at Grub Gulch, Fresno county, vice A. B. Anderson, resigned.

Oregon—Ed. Riddles, at Riddles, Douglas county, vice G. W. Riddles, resigned.

Washington—W. H. Boothnick, at Hot Springs; King county, vice I. G. McKain, resigned; J. S. Fla, at Mayer, Spokane, P. W. Tebs, resigned; A. M. Dufield, at rickern.gs, Mason county, vice N. B. Canning deceased.

New Postofices have been established in Washington as follows: At Lime Kiin, Pierce county, with J. Delbost Hale as Postmaster; at Paradise, Spokane county, with K. H. Keeny as Postmaster.

Pension Awards.

WASHINGTON, June 30th .- Pensions have been awarded as follows: California—Originai—Olive C. Reonds, deceased. Los Angeles. Reserve— Ruel W. Higgins, Benicia. Original widows, etc.—Sarah, widow of Oliver C. Reonds. Los Angeles. Survivor of 1812 (special Act) -increase— Stephen Cooper, Colusa.

Oregon -Original—Lemuel Hambalton, Jo-seph; Skillman G. Clarke, Condon. Original widows—Susan, widow of Henry N. Pearse, Rock Creek. Decision Affirmed.

Washington, June 30th.—The Treasury Department has affirmed the decision of the Collector of Customs at San Diego in assessing a duty at one per cent. per cubic foot on an invoice of hewed and sawed primavera logs imported from Mexico by Livingston, Clark & Co. The importers claimed a lover rate of dur. The importers claimed a lower rate of duty, but as the hewing and sawing enhanced the value of the logs the Collector levied a higher

Additional Appropriations.

Washington, June 30th.—The Secretary of the Interior has transmitted to the House an estimate of an additional appropriation of \$931, 000 required to carry out the provisions of the disability pension bill, signed by the President Friday—\$600 000 for surgeons' fees, \$100,000 for clerk hire and the rest for incidental expenses Reduction in the Public Debt.

Washington, June 30th.—It is estimated at the Treasury Department that there has been a decrease of about \$20,000,000 in the public debt since June 1st. The total decrease for the fiscal year is \$8,500,000, as against \$114,000,000 for the

CONGRESSIONAL.

IN THE SENATE. Washington, June 30th.—To-day, in the Senate, the services in commemoration of the late S. S. Cox were postponed until Tuesday of next week, on account of the absence of Voorhees, who desired to take part.

The House bill in relation to oaths in pension and other cases was pessed.

and other cases was passed.

The House bill for the admission of Idaho as a State was taken up.

Morrill gave notice that he would at the earliest practicable moment move to take up the tariff bill. Platt said he could not consent to any sug-gestion that interfered with the Idaho biil, and as anxious as he was to see it passed he would not consent to its coming up until the Idaho bill was disposed of.

Morgan said there had been no understand

ing arrived at (as was usual) as to the order of business, and he thought the business would be very much faculitated if the Senator from Vermont would fix a time when the tariff bill would be considered—the latter part of this week or the beginning of next.

Morrill said it was not his place to interfere with appropriation bills or with conference re

ports.

Teller remarked that the tariff bill cou'd not possibly be taken up this week. The Senate would probably adjourn from Thursday till Monday and probably the Idaho bill would not be concluded this week.

Platt—'We ought to get through with the Idaho bill to prow." Idaho bill to- orrow."

The report having been read, the bill was orarily laid side and the agricultural ap-istive bit taken up. After amendments nor importance the bill was passed. I dano bill was then resumed. Cullom de a brist speech in favor of it, after which the bill was laid a ide.

the bill was laid a ide.

The House joint resolution, continuing the annual appropriations thirty days after the close of the listal year, if the appropriation bills have not then become a law, was passed.

Additional IN THE HOUSE.

WASHINGTON, June 30th .- To-day, in the House, Dickinson of Kentucky, the successor of Carlisle was sworn in.

The debate on the Federal election bill was then resumed, Herbert of Alabama being accorded the floor. Herbert dwelt on the history of the reconstruction period, and said at that time the negro had been taught to distrust Southern white men. The negro was now learning that it was not to his interest to array himself solidly against the white man, and the white man was doing everything in his power to teach the negro this lesson. If the South was allowed to work out the problem for itself, the time would soon come when the negro, being educated as the white man was, would be able to take care of himself, bo has a taxpayer and as a citizen. was sworn in. Bouk of Tennessee said his advocacy of the national election law did not grow out of any supposed emergency or necessity, notwithstanding there were a variety of reasons why the power of the Government should be asserted. Strangers listening to the debate might

Democrats were combatting. The objection was not that the colored man was black, but that he voted the Republican ticket.

Colman of Louisiana announced himself a Republican, both from conviction and principle, a Southern man by birth, education and association. He opposed the enactment of the Federal election law at this time. He would heartily support a National election law if he thought its enactment would secure an honest ballot, but the supposition that the passage of such a measure at this time would have this effect was based on faise impressions and ignorance of the true state of affairs in some portions of the South. He did not wish to stimulate any trouble, and he was certain that trouble and bloodshed would follow the enactment of this legislation, and that the law would fail in its purposes. As it was, he would vote against it in this House. He wanted to see the solidity of the South broken, and there were signs of disintegration in the Democratic party of the South. Pass a Federal election law, and the men now ready to separate from the Democratic party would go back into what they were told was a white man's party, rather than his negro supremacy.

The debate was further continued by Burrows

[SPECIAL DISPATCHES TO THE RECORD-UNION.] negro supremacy.

The debate was further continued by Burrows and Chipman of Michigan, after which some formal amendments were agreed to.

Debate was interrupted, and a joint resolution extending the provisions of the present appriation Acts until the pending bills become laws was passed. laws was passed.

The election bill was resumed, and Lehlback of New Jersey offered an amendment providing that the Chief Supervisor of Election for every judicial district shall take such action as is requisite to secure such supervision in each Congressional district as is provided by the laws of the United States. He said if it was desirable to control Congressional elections by the National Government, let it be applied to every district in this country alike.

Cheadle of Indiana favored the amendment. With one or two exceptions, there was not a Republican constituency in the State of Indiana. If he voted for this measure, he wanted it applicable to the district he represented.

Mills of Texas spoke briefly against the bill, and the House tell a respective presented. and the House took a recess.

At the evening session several addresses were made for and against the bill, and an adjournment was taken until to-morrow.

FIRE COMMISSIONERS. Large Bundle of Bills at the Monthly

Meeting. The regular monthly meeting of the Board of Fire Commissioners was held last evening, all the members being present. The monthly pay-roll, amounting to \$1,810, was approved and ordered paid. When an armful of bills, representing

the incidental expenses of the department for the month of June, and footing up over \$3,000, were presented to the Board Chairman Weil gasped for breath. Chief O'Meara explained, however, that many of the bills were for improvements that would not be needed again in years, and the Chairman felt easier. The bills were

The bills were all approved and ordered The foremen of the various companies made their reports, showing that the men were all working well, and the apparatus generally was in good repair. A communication was received from Master Mechanic Small, requesting addi-tional fire-alarm service for the railroad shops. The matter was laid over for future

The Chief Engineer was authorized to purchase some new blunderbusses and pozzles which he had asked for. The invitation from the Fourth of July Committee to parade on the Fourth was accepted by the Commissioners. Chief O'Meara stated that the entire department would turn out with the exception of one engine, one hook and ladder and three ose carts, which will be held in readiness for fire. Fifteen men will be pressed into service to take care of them.

A discussion over the alarm system fol owed, in which Colonel Guthrie and Electrician Fiske took an active part and exchanged some warm language. Nothing came of it, however, and the Board adjourned without taking any action regard ing the alarm system.

Capital Gas Company, Sacra-

mento City, California.

OTICE IS HEREBY GIVEN BY THE Board of Directors of the Capital Gas Com-y that said Board of Directors will, at its ce, 2261/4 K street (up stairs), in the city of tramento and State of California, on Tuesday, the 1st Day of July, A. D. 1890,

At 10 o'clock A. M. of said day, sell to the highest responsible bidder, for cash, in gold coin of the United States, from one to one hundred and fifty bonds of said Capital Gas Company, of one thousand dollars each, and aggregating the sum of one hundred and fifty thousand dollars. The bonds are secured by first mortgage, and will constitute the only indebtedness, even after the completion of extensive additions now being made to the plant and realty. They will run for twenty years, but at the end of ten years the company shall have the right to redeem fifteen thousand dollars annually by allotment.

Sealed proposals for the purchase of said bonds will be received by said Board of Directors until the day and hour aforesaid, at which time said Board of Directors will open the proposals and award the purchase of said bonds to the highest responsible bidder, but the said Board of Directors reserves the right to reject any and all bids, and will in no event sell any of said bonds for lessthan par.

Said bonds are dated. May 1st A. D. 1800 and

Said bonds are dated May 1st, A. D. 1890, and bear interest at the rate of six per cent. per annum, payably semi-annually.

The purchaser of any of said bonds will be required to pay back the interest hat may have gerryed between the detact said. quired to pay back the interest that may have accrued between the date of said bonds and the sale and delivery thereof. The said bonds will be delivered to the successful bidder, and the money received therefor, at the National Bank of D. O. MILLS & CO., in the city of Sacramento, and at the banking house of TALLANT & CO., San Francisco, California.

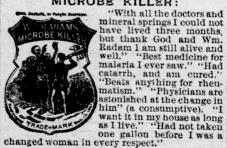

All bids for the purchase of bonds should be addressed to C. H. CUMMINGS, Secretary of the Capital Gas Co., Sacramento, California, marked on the outside "Bids for Bonds."
